SUMMARY

Leading software developer with experience in React JS and Django. Skilled in web development, back-end development, and product development. Passionate about developing user-friendly applications and creating scalable software.

EXPERIENCE

July

Orange Egypt, Cairo , Egypt

2022-Present

- Worked with a team of developers to create an e-commerce website using React Js and Node for backend processing
- Created reusable components that were easily maintainable, tested, and documented for future development teams
- Developed frontend applications in React Js (15+ projects) and Angular 2 (1 project)
- Collaborated with designers on UI/UX design specifications before beginning development work
- Implemented unit tests to ensure code quality and prevent regression bugs from entering production environments

June

Freelancer, Cairo , Egypt

2019-Present

- to develop user interface components and implemented Redux for state management
- Used React Router for client-side routing and Axios for making asynchronous HTTP requests
- Created unit tests using Jest and Enzyme to test React components and Redux reducers
